

## The Gallipeau Harris Foundation

GHF has been supporting students at Tung Pho High School in Pang Nga since 2005. Although severely effected economically by the devastating tsunami of late 2004, this area was largely overlooked as it lies outside the resort areas of Phuket and Kao Lak. Students here are very bright and very engaging and we are pleased to be able to continue our support. Currently we provide 15 scholarships and plan to provide 20 scholarships for the next school year. February 28th GHF visited Tung Pho to present 9 of our graduates with certificates & pens and wish them well as they head off to University and College. We wish them all good luck and great success in the future.
